All of my cars are numbers matching with original drive trains. Including this one.

Car was delivered new to Tasse Automobile in Hanmer Ontario in December 1979 or January 1980.

Complete Vehicle owner history as well as other documents are enclosed online here.

Sudbury Ontario is a large mining town with Inco being one of the biggest.

Being a mining town, there *could have been* some instances of ~~%~~fall out+from the smelters effecting paint jobs on cars all over the city. The owner at the time, named Eugenio Presot filed a claim to get the car repainted in 1994 but never proceeded to get it done. He filed a claim just as a precaution but just never followed through on it. Documents enclosed.

There is no damage to the paint so I do not know why he filed or how it even got approved. Weird.....

The car to this day has all of its original paint and it is in amazingly good condition. Very very nice and still sparkles like new despite having not been washed in so many years.

The car is amazing condition and although you can't say it is ~~%~~like new+condition, it is pretty darn close.

Just a gorgeous, original representative of a 1980 Trans Am in a very pleasant Tahoe Blue Metallic combo. Pretty much behaves like a 17,000 mile should. Starts, runs and drives pretty much like new.

This car originally came with Rally II~~q~~ but was changed to the Silver Snowflakes for bling appeal. You could always go back to Rally II~~q~~ if you wanted to.

### **Contact Information**

**Call or email me ( John Shaw ) about the cars. Do not call Tom please.**

Tom can assist you in seeing the cars since he is always there.

I will discuss price and any other information that you want to know about the cars.

Thank you  
John
