

1978 Black on Black Bandit Clone Hard Top

\$25,000

400 Automatic Vinyl Interior Strathroy

Mileage as of this date is original 16,318 Miles.

Multiple Owner Car from the Listowel Ontario area.

Car was delivered new to Mark Cullen Motors in October 1977.

This car has spent all of its life in the mid-Ontario area. The last owner was Sean Baldwin of Strathroy Ontario. (see attached vehicle history sheet)

The car was originally a Black on Black 1978 Automatic with the 400 Big Block. It is still this car but has been converted \ upgraded to a Bandit car.

Gorgeous Black paint and graphics job. Just like the other 2 bandits we have.

One of the 3 bandit clones in the birdbunker.com

Super nice and clean and solid.

The black paint on the front was a little muzzy from over the years so the decision at the time was to do a perfect repaint. This car was, and still is a super clean, super solid car all around.

Therefore, the decision was made to paint the car and go all the way and turn into a *crowd gathering, head turning, never seen that before* Bandit.

1978 Black on Black Trans Ams are really nice cars.

Black on Black 1978 Bandit cars are really really nice cars.

Even though you would never want to, you could, could..... go back to what it was just by removing the bling. But why would you? This and the 3 other Bandit clones are really super shape and super nice looking cars.
